

Call for Presentations

The international One Conference in The Hague, the Netherlands, 2 & 3 October 2018

Conference

The Dutch Government organizes the international One Conference 2018. This conference aims to facilitate the exchange of knowledge and ideas within the international cyber security community. To this aim 1200 people from the (inter)national CERT community, academia, security professionals from public and private sector as well as our key partners from law enforcement and intelligence will participate in this event.

The conference program offers topics of interest for a wide variety of participants, from (technical) specialists to decision-makers and researchers, from both the private and the public sector.

Sessions

The Dutch Government invites researchers, companies and professionals to submit proposals for presentations. All sessions are 40 minutes in length including Q&A. Previously published and/or presented material is welcome if the information and message are still new and relevant to this audience. Presentations will ultimately be chosen based on relevance to the topics below, maturity of results and relevance to the audience.

Topics

Topics include but are not limited to:

Technical: botnets and C&C, exploitation & malware, vulnerability research, design & attack surface, attacker MO, deployment of defensive measures, (inter)networking and operations, metrics & measurements, field-related (privacy, cryptography, ..), domain-related (IoT, ICS/SCADA, mobile, medical, automotive, ..)

Incident response: monitoring and detection, information sharing, threat intelligence, CSIRT maturity, incident handling, cooperation (tactical and operational), incident analysis, coordinated vulnerability disclosure, case studies, lessons learned

Governance: law enforcement, legal aspects, cross-border collaboration, risk management, public-private partnerships, organizational structures, coordinated vulnerability disclosure, data breaches, supply chain: responsibility & liability

Strategic issues: cyber security & economic growth, implementing international cyber security strategy, (conflicts of) interest of values in cyber security, future scenarios, the role of the government, cyber espionage & future economic impact, incentives in cyber security

Human factor: offenders, victims, social engineering, insider threat, post awareness, education and training, privacy

Research & innovation: completed and ongoing cyber security research (fundamental and applied) and innovation

Proposal requirements

Presentation proposals (maximum one page) should consist of:

- Title and abstract
- Type of presentation (e.g. lecture, panel, demo and interactive aspects such as Q&A's or real time polling)
- Aim of the presentation. What's in it for the audience (public and private sector)?
- Target audience (e.g. technical specialists, analysts, policy makers)
- Short bio of the speaker

All presentations are in English, **commercial presentations are excluded**.

Proposals can be submitted to speakers@one-conference.nl

Important dates

- Deadline for submission: Friday 15 June 2018
- Presenter notification: Wednesday 15 August 2018
- Conference: Tuesday 2 & Wednesday 3 October 2018

The One Conference 2018 is organized by the Ministry of Justice and Security and the Ministry of Economic Affairs and Climate Policy.
