Dialogue: bridging complexity

Lawyers and Engineers both are designers and builders of complex and operable systems.

With very different tools and mental processes

Technical system

Hyper Scale cloud – Edge - IoT
Partner ecosysteem

The legal system

Regulations, standards, norms – GDPR
Regulators and policymakers – EDPB / EC

Privacy & control: enterprise cloud hosting option

Choice, options, transparency, control, assurance

Assurance; good questions to ask your cloud provider...

- Can you control your data?
- Does the cloud provider help you to secure your data at rest, in transit or in process?
- Where is your data stored/processed
- Does the cloud provider defend your data
- What is contractually committed and is (third party) assurance available

 Microsoft

Compliance with EU transfer requirements for personal data in the Microsoft cloud

Appendix C – Additional Safeguards Addendum
